PALADYNE SYSTEMS, Inc., a Delaware
Corporation,

Plaintiff,

v.

STPENABLE, LTD., a United Kingdom
Company,

Defendant.

Case No. 07 CIV 8421 (LAP)

**STIPULATION AND
ORDER OF SETTLEMENT
AND DISMISSAL**

WHEREAS, on or about September 27, 2007, plaintiff Paladyne Systems, Inc. ("Paladyne") filed a Notice of Arbitration before the International Institute for Conflict Prevention and Resolution ("CPR"), thereby initiating an arbitration proceeding (the "Arbitration") against defendant STPenable, Ltd. ("STPenable") pursuant to provisions of the Solution Integrator Agreement between Paladyne and STPenable dated November 1, 2005 (the "Agreement"), under which disputes arising under the Agreement are to be resolved through arbitration before CPR;

WHEREAS, on or about September 28, 2007, for purposes of seeking temporary injunctive relief in aid of the Arbitration, Paladyne filed a complaint in this Court against STPenable, alleging misappropriation of trade secrets, breach of written agreement, and common law unfair competition;

WHEREAS, on or about September 28, 2007, Paladyne moved *ex parte* before this Court by Order to Show Cause for preliminary injunctive relief, and following a telephone conference with David Wynter ("Wynter") and counsel for Paladyne, the Court granted a temporary restraining order;

WHEREAS, both parties thereafter submitted full briefing on Paladyne's motion for a preliminary injunction;

WHEREAS, on October 29, 2007, the Court held the first day of a hearing on Paladyne's motion, at which witnesses testified and documents were moved into evidence;

WHEREAS, on November 1, 2007, upon completion of Wynter's direct examination, STPenable withdrew its opposition to the preliminary injunctive relief sought by plaintiff, and consented to the entry of preliminary injunctive relief pending resolution of the Arbitration;

WHEREAS, on November 2, 2007, the Court entered preliminary injunctive relief pending resolution of the Arbitration and the instant action;

WHEREAS, STPenable has not yet filed a Notice of Defense or a Notice of Counterclaims in connection with the Arbitration; and

WHEREAS, STPenable, Wynter, and Paladyne have determined that settlement of this action and of the Arbitration is in their interests;

IT IS HEREBY STIPULATED AND AGREED, by and between the parties to this Stipulation and Order of Settlement and Dismissal (the "Stipulation and Order"), as follows:

Licensing to Paladyne of the Transformer Source Code and Its Templates

1. STPenable shall sell to Paladyne a non-exclusive perpetual license to use, alter, modify, create derivative works from, resell, and sublicense on an unlimited basis the source code and all templates of STPenable's Transformer product together with certain support services for the sum of One Hundred and Twenty-Five Thousand Dollars (\$125,000.00), which price shall be offset by the Twenty-Five Thousand Dollars (\$25,000.00) owed by STPenable to Paladyne pursuant to paragraph 11 below. Simultaneous with the execution of this Stipulation and Order, STPenable and Paladyne will execute a license agreement for the source code and templates of STPenable's Transformer product in the form attached hereto as Exhibit A.

2. Wynter will provide training services to Paladyne in connection with the license of the Transformer source code and its templates for a period of four (4) months, broken down as follows: Wynter shall provide full-time training (minimum of eight (8) hours per day) to Paladyne for ten (10) business days (the precise days to be worked out reasonably by the parties in accordance with Exhibit A). For the remainder of the four-month period, Wynter will be on-call to Paladyne to consult on various issues that may arise (the precise times to be worked out reasonably by the parties in accordance with Exhibit A), but Wynter will not be required to provide more than fifteen (15) hours per week in consultation with Paladyne. These and all other terms relating to the Transformer source code and template license are more fully set forth in Exhibit A.

The Creation and Use by STPenable of an Independent Golden Copy

3. At any time following entry of this Stipulation and Order, STPenable may contract with an independent third party to create a new golden copy database based upon the elements and attributes as defined using the market data definition language ("mddl") 3.0 beta standard. The selection of the independent third party and the terms of the contract with such third party shall be subject to the approval of Paladyne, but such approval may not be

unreasonably withheld, conditioned, or delayed. Paladyne will thereafter monitor the independent creation of the new golden copy database in a fair, reasonable, and expeditious manner. STPenable will document the independent development of the golden copy database for each stage of its development. The ultimate approval of the independent development of the golden copy database shall be within Paladyne's discretion and may only be provided in writing (the "Golden Copy Approval"). Paladyne may not, however, unreasonably withhold its approval at any stage of the development of the golden copy database or upon completion of the golden copy database, and Paladyne may not unreasonably delay any stage of the development of the golden copy database or its ultimate Golden Copy Approval. Subject to the provisions set forth in this paragraph and in paragraphs 8 and 10 below, STPenable and Wynter will not begin to market, sell, or use the newly created golden copy database until Paladyne has provided the Golden Copy Approval to STPenable. In the event that Paladyne and STPenable disagree about the independent development of the golden copy database, STPenable may, at its sole option, retain a third party that is mutually agreeable to both STPenable and Paladyne to review all independent development material and development (a "Third Party Reviewer"). Paladyne's approval of the Third Party Reviewer may not be unreasonably withheld. If the Third Party Reviewer confirms in writing to Paladyne that the golden copy database was in fact independently created, Paladyne will promptly provide the Golden Copy Approval. If the Third Party Reviewer does not confirm in writing that the golden copy database was independently developed, then Paladyne's refusal to provide the Golden Copy Approval shall not have been unreasonable. The cost of the Third Party Reviewer will be borne equally by STPenable and Paladyne.

4. Subject to the terms and conditions set forth in paragraph 3 above, and with the exceptions set forth in paragraphs 8 and 10 below, STPenable and Wynter will be free to use the

independently created golden copy database for any purpose as soon as Paladyne has provided the Golden Copy Approval to STPenable.

The STPenable Database

5. Beginning in 2006, STPenable and Wynter marketed and sold a golden copy database model that is the subject of this lawsuit and of the Arbitration (the "STPenable Database").

6. STPenable and Wynter hereby represent that they provided versions of the STPenable Database (containing only non-material modifications) to each of (a) Lipper Limited ("Lipper") in or about August 2006 and (b) Advent Software, Inc. ("Advent") in or about April 2007, and to no one else.

7. Upon entry of this Stipulation and Order, STPenable and Wynter will destroy the STPenable Database and any related golden copy materials in their possession and agree not to market, use or sell the STPenable Database.

STPenable's and Wynter's Relationship With Advent

8. For a period of three (3) years from the date of entry of this Stipulation and Order, STPenable and Wynter will not knowingly: (a) directly or indirectly (including through an intermediate agent or company) provide any support, whether compensated or non-compensated, to Advent; (b) directly or indirectly (including through an intermediate agent or company) perform any consulting of any nature, whether compensated or non-compensated, to Advent; (c) directly or indirectly (including through an intermediate agent or company) engage in any employment relationship with Advent; (d) directly or indirectly (including through an intermediate agent or company) provide Advent with any additional software, replacement

software, or updates or modifications; or (e) enter into any agreement with Advent involving the sale of STPenable's business.

9. Upon entry of this Stipulation and Order, STPenable and Wynter will send a letter to Advent informing Advent of the nature of this Action and the Arbitration; informing Advent of this Stipulation and Order; requesting that Advent return or destroy the STPenable Database and any related golden copy materials that STPenable and Wynter delivered to Advent; and informing Advent that, pursuant to the Stipulation and Order, they will provide Paladyne with any response provided by Advent to their letter. STPenable and Wynter will promptly notify Paladyne that they have sent such a letter, and will provide Paladyne with a copy of any response provided thereto by Advent. In addition, upon entry of this Stipulation and Order, undersigned counsel for STPenable will send a letter to Advent stating that, pursuant to the terms of this Stipulation and Order, counsel is requesting that Advent return the STPenable Database and all related golden copy materials that STPenable and Wynter provided to Advent.

Non-Compete Period Within the Hedge Fund Industry

10. For a period of nine (9) months from the date of entry of this Stipulation and Order, STPenable and Wynter will not engage in any kind of golden copy or security master work in the hedge fund industry (which includes prime brokers, fund administrators, hedge funds, registered investment advisors, asset managers, and fund of hedge funds).

STPenable's Fulfillment of Its Contractual Arrangement with Lipper Ltd.

11. Upon execution by the parties of this Stipulation and Order, STPenable will be permitted to satisfy all of its remaining obligations under the terms of the May 2006 contract between Lipper and STPenable (the "Lipper Contract"). STPenable will pay to Paladyne a portion of its revenues from the Lipper Contract in the amount of Twenty-Five Thousand Dollars (\$25,000.00).

12. Paladyne may offset the Twenty-Five Thousand Dollars (\$25,000.00) owed to it by STPenable under paragraph 11 above from the amount due to STPenable pursuant to the Transformer license agreement as provided in paragraph 1 and Exhibit A.

13. Within three (3) months of receipt of Paladyne's Golden Copy Approval, STPenable will substitute the independently created golden copy for the golden copy database that is currently being used in connection with the Lipper Contract. STPenable will confirm in writing that this substitution has occurred. Thereafter, STPenable and Wynter will not make use in any way of the golden copy model originally provided to Lipper under the terms of the Lipper Contract and will deliver this product to Paladyne, which shall have exclusive ownership of this returned product.

Signatories Bound and Jurisdictional Provisions

14. Wynter consents to the jurisdiction of this Court in connection with this Stipulation and Order and agrees that he is bound by its terms in his individual capacity as well as in his capacity as principal of STPenable.

15. This action and the Arbitration are hereby dismissed with prejudice, without costs or attorney's fees to any party.

16. The Court shall retain jurisdiction to enforce the provisions of this Stipulation and Order for three (3) years following entry of the Stipulation and Order. Without limiting the generality of the foregoing, the signatories acknowledge and agree that paragraphs 1, 2, 8, 9, 10, 13 and 20 are injunctive provisions which are specifically enforceable by the Court, and the failure to comply with such provisions shall be subject to the contempt remedies of this Court.

Mutual General Releases

17. Paladyne hereby releases STPenable and Wynter from any and all claims and liabilities arising directly or indirectly from the events, circumstances, or incidents giving rise to

this action and/or to the Arbitration and all claims incident thereto, including but not limited to any claims asserted by Paladyne in the complaint dated September 28, 2007, and in the Notice of Arbitration dated September 27, 2007. Nothing herein is intended to release STPenable or Wynter from any obligations under this Stipulation and Order and any exhibit hereto.

18. STPenable and Wynter hereby release Paladyne from any and all claims and liabilities arising directly or indirectly from the events, circumstances, or incidents giving rise to this action and/or to the Arbitration and the negotiation, drafting and execution of this Stipulation and Order and all claims incident thereto, including but not limited to all claims that could have been brought as counterclaims in either this action or the Arbitration. Nothing herein is intended to release Paladyne from its obligations under this Stipulation and Order and any exhibit hereto.

General Provisions

19. Nothing in this Stipulation and Order is intended as, or shall be construed as, a release by Paladyne of any third party or as a waiver of any of Paladyne's rights with respect to any third party, including Advent or Lipper, for any claims or liabilities arising directly or indirectly from the events, circumstances, or incidents giving rise to this action and/or to the Arbitration.

20. Neither STPenable nor David Wynter shall disclose any proprietary confidential information that was disclosed to them pursuant to the parties' previous relationship under the Agreement (the "Confidential Information"), including any Confidential Information relating to Paladyne's Security Master and golden copy database. Confidential Information shall not include any information that: (i) is or becomes public domain through no fault or act of the receiving party; (ii) is shown to be independently developed by the receiving party without the use of or reliance on the disclosing party's Confidential Information; or (iii) was provided to the receiving party under no duty of confidentiality to the disclosing party.

21. This Stipulation and Order and the license agreement attached hereto as Exhibit A shall supersede the Agreement, and the Agreement shall be null and void and of no further effect.

22. This Stipulation and Order shall be binding upon and inure to the benefit of all parties and their principals, agents, representatives, heirs, successors, and assigns.

23. This Stipulation and Order and the exhibit hereto contain the entire agreement between the parties with respect to the subject matter of this action and of the Arbitration, and any statements, representations, promises, agreements, or negotiations, oral or otherwise, between the parties or counsel that are not included herein shall be of no force or effect.

In consideration of payment of the Licence Fee, and subject to clause 2.2, the Licensor hereby grants to the Licensee a non-exclusive, perpetual, and irrevocable licence to use, modify, create derivative works, transfer, assign, and to license, sublicense, or sell (collectively "Use") the Licensed Products for any purpose as Licensee may wish at its sole discretion.

All such modifications, derivatives and additions shall be the intellectual property rights of Licensee. Licenser shall work with Licensee to successfully compile and test the Source Code for Use with the Software Products to verify accurate and complete delivery of the Source Code (the "Initial Verification").

8.1.1. shall as soon as reasonably practicable notify the Licensor in writing of any such claim of which it becomes aware;

8.1.2. does not make any admission as to liability or compromise or agree any settlement of any claim without the prior written consent of the Licensor, which consent shall not be unreasonably withheld or delayed, or otherwise prejudice the Licensor or any other third party's defence of any claim; and

8.1.3. upon payment of Licensee's its reasonable costs, gives the Licensor and such other third parties as the Licensor shall direct all reasonable assistance with the conduct or settlement of any such negotiations or litigation.

The Licensor shall have the right to control the conduct or settlement of all negotiations and litigation arising from any claim, but will consult with Licensee or its counsel regularly with respect thereto and will provide Licensee with any and all documents or information relating to the claim as requested by Licensee. Notwithstanding anything to the contrary, Licensor shall not enter into any settlement affecting Licensee's legal rights or the legal rights of a Related Company without the prior written consent of Licensee.

- 8.5. In the event of any claim attributable to the Use or possession by the Licensee of the Software Products and/or the Source Code and/or the Documentation other than in accordance with the provisions of this Agreement, the provisions of clauses 8.2 to 8.4 shall not apply and Licensee shall indemnify the Licensor against all liabilities, costs and expenses which the Licensor may incur as a result of such claim.

9. Warranties

- 9.1. The Licensor warrants that the Software Products will during the Warranty Period under normal Use conform in all material respects with the functionality outlined in the Documentation. If the Licensee notifies the Licensor in writing of any material failure of the Software Products so to conform during the Warranty Period the Licensor shall at its own expense and sole option either correct any demonstrable failure in the Software Products within a reasonable time or upon return of the Software Products, the Source Code and the Documentation provide or authorize a refund of the Licence Fee and the other payments referred to in clause 7 to the Licensee.
- 9.2. The Licensor warrants that it will provide the Training Services and the Support Services using reasonable care and skill and the Licensee's sole remedy against the Licensor for any failure to so provide the Training Services and the Support Services shall be to require the Licensor to correct such failure free of additional charge and within a reasonable time.

- 9.5. The Licensor warrants that none of the Software Products include any software, source code or other documentation that the Licensor licenses or sub-licenses from third parties for a fee, except for the list of software modules and/or programs detailed in Schedule 5.
- 9.6. The Licensor warrants that the list of templates described in Schedule 1 represents the full list of all templates that Licensor has in its possession.
- 9.7. Licensor further warrants, represents and covenants that the Source Code and Documentation provided are the latest version of the Software Product and that it materially works and functions error-free and in materially the same respect as the version that Licensee uses in production with its clients as of the Effective Date.
- 9.8. Licensor further warrants, represents and covenants to Licensee that: (i) Licensor has the right to furnish to Licensee the Licensed Products and other materials covered hereunder free of all liens, claims, encumbrances and other restrictions except as stated to the contrary herein; (ii) Licensee's permitted use and possession of the Licensed Products and other materials will not be interrupted or otherwise disturbed by any entity asserting a claim under or through Licensor; (iii) the Licensed Products and Updates thereto will be free from any material defects in design, materials and workmanship; (iv) the Documentation provided by Licensor will accurately and materially describe the Licensed Products provided to Licensee hereunder and (v) any Maintenance Services or other services provided by Licensor hereunder will be performed in a professional manner by qualified, and skilled personnel. Schedule 1**Software Products****Description of Licensed Product or Transformer:**

Transformer is an Enterprise Web application for managing market data feeds and any internal source of data. Transformer controls the workflow of data from an 'end of day' or intraday market data feed into a container of your choosing. In the process of managing the market data flow it is able to transform it into several different forms. For example, into your valuations database or into a file format and structure suitable for import into nearly all applications including Excel. It also manages all scheduling, communications (FTP and HTTP) and error notification. It can manage multiple phases of processing (workflow) and multiple data sources, allowing for data cleansing.

Transformer cannot automatically transform inputs to outputs in all cases, in some cases small custom Java classes must be written to achieve the transformation required. What it does do is isolate the custom logic when it is required. The major work of handling a market data feed and transforming it into your operational systems is automatically managed.

Transformer uses metadata templates for the major market data feeds. These templates include all the metadata for the feed ready loaded in Transformer and any Java classes required to enable the management of a particular vendors data feed. This management includes the collection of the feed and transformation into a database that supports a data model of Licensor and/or the clients devising. It also includes the error handling and alert notification with messaging. Transformer provides a fully managed solution. Additional templates for further data feeds can be added.

Severity 2 problems either have available workarounds, or affect portions of the Software Products which a typical user of the Software Products would not deem to be a Core Function of the Software Products. For all Severity 2 errors reported by Licensee, Licensor shall acknowledge and address such reports within six (6) hours after receipt.
